

The NEW Zhaga – Introducing free Community membership

The NEW Zhaga will introduce a new member category, called “Community” with a free membership and a dedicated set of benefits as outlined below. It is aimed at installers, specifiers, architects and end-users, and other interested parties, enabling closer interactions.

Preregistration is already possible at the link: <https://goo.gl/forms/n7Z1ye3UqmQfrllk1>

The Community membership will be rolled out as part of the NEW Zhaga. We will keep you informed about the progress in a timely manner.

About Zhaga

Zhaga is a global association of lighting companies that is standardizing interfaces of components of LED luminaires, including LED light engines, LED modules, LED arrays, holders, electronic control gear (LED drivers) and connectivity fit systems. This helps to streamline the LED lighting supply chain, and to simplify LED luminaire design and manufacturing. Zhaga continues to develop specifications based on the inter-related themes of interoperable components, smart and connected lighting, and serviceable luminaires. For more information, visit www.zhagastandard.org.
